

DSP9231 Boundary Microphone

Description

DSP9231 The boundary microphone is most successfully mounted on existing surfaces such as tables, floors, and walls. The small and exquisite modeling makes it easy to hide. It is designed with nut collar for easy setup. In order to coordinate with engineering installation, the microphone operates at 9~52V phantom power. The microphone is complied with standard XLR connector.

Specification

Model	DSP9231
Element	Back Electret Condenser
